Welcome back with issue 244 which comprises session 7 of season 22

I wasn't sure if I was going to get this issue completed on time or not. On the Saturday evening before the deadline the computer started to get really jerky on a PC game I was playing, every few seconds it froze for a second or two before continuing. This continued despite me shutting down the system and completely restarting. I feared a virus!! So on Sunday I booted up the PC only to find the keyboard was dead!! I was no amused!! I rebooted the PC just in case, and everything booted up fine – including the keyboard. This again was leaning me towards a virus. Within a minute of boot up “Beep”, The system just inexplicably crashed out and rebooted!! OK I was now getting a bit pissed off. I ran disk clean-up, then I ran Adaware – which I do every 3-4 days. Adaware is a free program that sweeps your computer and locates any logging programs and cookies that may have been loaded to the pc via the internet. I got the usual dozen or so cookies and nothing else. So they got cleared off. Then I ran a full defrag. So far so good. And finally I ran another full virus check [something I do every 2 days] My virus checker failed about ¾ of the way through – this again had me thinking I had a virus. But all the other checks I had done and maintenance carried out during the day showed the system to be clean, so I was somewhat bemused. It was now Sunday night, so I left it until I got home from work on Monday, I immediately ran the virus checker again. This time the checker went through the scan in full and no problems. Everything has been running perfectly since, so I have no idea what was causing the problem, the computer is clean and virus free so I just do not know what happened. I like to think I am sensible with my security as I never open e-mails from someone I don't know – I usually send them on to work and open them from there. I have anti-virus software always turned on, working and up to date. And I only ever go on sites that I trust. I suppose it is just one of those things that I will never know what it was!!

## NMR's AND NMR LOG

There were 0 nmr's this session

The NMR log is reset during the close season but regardless of this 2 nmr's in a row will still see you replaced as manager as will 3 nmr's in one season

## PRESS & NOTES TO MANAGERS

GM – All	The current version of the order form is v6.02 – email subbers are asked to use the current version please.
GM – Aardvarks	Even when blatantly wrong the gm is right!!
AFC Paarl – Welthlasse	I'm not saying anything controversial after last time ☺
Apostles – Skem 1882	Congratulations Taco
GM – All	That comment is referring to Taco becoming a dad!!
Apostles – Aardvarks	I did correspondence about 10 years ago. It was ok but found classroom revision courses combined with it were great.
Liverpool – GM	think you were rather harsh in fining me 1gpp because I stated the wrong division. Others named injured players, coached unqualified players, didn't use/insufficient hardness, totalled incorrect additions etc things that actually affect the program. Surely there must be an appeals board that I can apply to?
GM – Liverpool	All appeals must be made in triplicate on £50 notes and sent to me via recorded delivery. Gpp's can be bought back at the end of the season for a nominal 25k each. The fine system encourages you to help me as all mistakes punished actually slow me down and the fines are not exactly excessive but do allow me to make my point because every game had to be checked for accuracy and all teams are siphoned off into their divisions before work starts so promoting yourself in advance does still slow me down.
Meerkats – All	Meerkats offer several III7 field players, a GK II 8 and a SW I 10. Trade with younger players preferred, but all deals possible. If you're interested mail <a href="mailto:Daniel@hogetoorn.com">Daniel@hogetoorn.com</a>
Picasso – GM	What does a manager have to do to get manager of the month award? I have been top of division 4 EVERY SESSION FROM 1-6. & I thought a schoolboy played 5 matches to qualify.
GM – Picasso	Are you <b><u>PETE BERRY</u></b> in disguise?? NO? Ask Pete he will tell you what to do!! He's an expert!! Schoolboys are 6 games to qualify – always have been!
Stoney Mountain – Div 3	Looks like it's going to be fun this season. Any idea who is going to get promoted with us?
GM – Stoney Mountain	Well if Rankins and Buckley had performed to their potential then you would be fighting for only one place as I would have expected both teams to have had a record something like P14 W12 D1 L1 = 37pts and all but promoted!!

## GPP FINES THIS SESSION

AFC Paarl Rock	1 gpp – incorrect player numbering – Cape Province
Atletico Royston	1 gpp – breaking the 3 times rule
Liverpool	1 gpp – incorrect levels on Crouch causing a breach of the 3 x rule.
New Age Steppers	1 gpp – incorrect allocation of vp's during coaching.
Newton Heath	1 gpp – failing to use DLM correctly causing a breach of the 3x rule.
Newtown Utd	1 gpp – incorrect levels claimed for Wall and pistachio
Stoney Mountain	1 gpp – failing to name a team for the cup
W.B.A.	1 gpp – failing to name a penalty taker and substitute in game 2
Wellingborough	1 gpp – for claiming a level 21 sweeper in game 1
Welthlasse	1 gpp – incorrect numbering of Lui and Cook

GPP fines are from next season's allocation, not this seasons gpp totals.

As a reminder all lost gpp's can be re-purchased during the close season for a fee of 25k each.

## NEW BLOOD

Session 8 auction rules:-

The final auction of the season is a little bit special, for lots 1-5 the GM will calculate the average bid for each lot. The GM will then sell 3 of each lot as follows:-

- 1 – the team who's bid is nearest the average but higher than the average will secure the lot.
- 2 – the team who's bid is nearest the average but lower than the average will secure the lot.
- 3 – the team with the highest bid will secure the lot

That's 15 top class players on the market as a final offering from the GM this season

No team may secure more than 1 player from this sessions auction.

In the event of a tied bid for any lot then the player will be sold to a GM run team, [Sunny Rhyl or Lurgan as seen fit by the GM] for the same fee, instead of the bidding teams. The GM run teams may therefore take more than one player on a technicality.
